Got it. Just found the reference as well. ACT Container Co in Richmond. That was on a list of possible purchasers. We are double-checking; I believe we will end up with a showing that we did not sell drums to ACT in January 1979 (or ever from what I can tell).

Do you have any documents indicating any other names for ACT?

Nancy

Hi Nancy - I would have to guess that it is a reference to ACT Container and that entity appears to have been a drum dealer or broker.

Hi, Craig.

Do you have any information as to what "ACT" stands for?

Thanks

Nancy

Nancy -

As we just discussed, EPA has located a Bay Area Drum document referencing the "Lawrence Berkeley Laboratory" (attached). The document specifically references "Scrap Sale 79-2" dated January 15, 1979. Please review any of the lab's available record sources to determine if there are any documents related to this scrap sale. We discussed that, by February 15, 2010, LBNL would provide EPA with any documents located.

Thanks for your cooperation.
